

Abstracts selected for presentation

Name (in alphabetical order by the first name of first author; this list does not include co-authors names)	Title of paper	Presentation category (Mini-symposium MS; Workshop W; Film F; Oral O; Poster P)
Abdulhakim Jawad K Almatar	- Barriers and facilitators of sports and physical activity participation among persons with physical disabilities in Saudi Arabia: A pilot study.	P
Adelmo Nakayama	- Mobility using Wheelchairs in children with myelomeningocele	P
Admilson Santos	- Blind people and their concepts about sports activities	P
Adriana Berleze	- Motor skills in obese children	P
Adriana Coutinho de Azevedo Guimarães	- Quality of life in middle age individuals enrolled at a university	P
Adriana Inês de Paula	- Physical activity and fibromyalgia: a case study - Mood swing in people with Down syndrome after physical activity classes	P P
Agueda Maria Flores Gomes	- Adapted Sports Project for Angolan Children and Youth with Disabilities	O
Afonso Janaína da Silva	- An analytical study of the current models of games for people with disability in Brazilian schools	P
Aija Klavina	- The effect of peer tutoring on interaction behaviors in inclusive physical education	O
Alberto Bauer Brinati	- The influence of the Strength Resistance Exercise Training in glycemic rates in individuals with type 2 diabetes mellitus.	P
Alessandra Bombarda Muller	- Intervention in Down syndrome: a case study of three toddlers in early standing and treadmill stepping - The relation between motor performance with gestational age and socio-economical family level	P P
Alessandra Célia Bonfim Coutinho	- Evaluation of the energy expenditure based on the heart rate in individuals with spinal cord injury	O
Alessandra Paiva de Castro	- Incidence of falls in the institutionalized elderly in the city of São Carlos, Brazil	P

Alessandro Tosim	- Motivation and anxiety levels of goalball players	P
Alexandre Antonio Félix	- Change: dance in the lives of dancers with and without disabilities - Change - dance	P F
Alexandre Correia Rocha	- Comparative analysis between muscular strength and performance in daily life activities by elderly groups - Functional capacity: comparisons between active and sedentary elderly	P P
Aline Dias Brandão	- Clinical signs and malformation in children with myelomeningocele - Clinical, functional and socio-economic characteristics of children with myelomeningocele	P P
Aline Evelyn da Silva	- Influence of body weight support during walking in lower limb joints of obese adults	P
Aline Miranda Strapasson	- Polybat: a new game for people with cerebral palsy - Apert Syndrome: A study of case	P F
Ana Clara de Souza Paiva	- Music and movement in a physical activity program for individuals with mental disorders	O
Ana Cláudia Borges Martins	- Taekwondo for visually impaired individuals	P
Ana Cláudia Vitor das Graças	- Quality of life and wheelchair basketball	P
Ana Flávia Leão Pereira	- Effects of physical activity in the quality of life of individuals with physical disabilities	P
Ana Flora Zaniratto Zonta	- Outreach programs in Adapted Physical Activity at UNESP, Bauru, Brazil	P
Ana Francisca Rozin Kleiner	- Cerebral palsy: functional mobility in artificial and real environments - Effects of environment and the type of spastic cerebral on functional mobility	F O
Ana Lúcia Gil de Oliveira	- Elderly athletes: sport like an element for promoting health and quality of life	P
Ana Luísa Fernandes de Moraes	- Expressive and symbolic body movements in psychiatry therapy	O
Ana Palla-Kane	- Multicultural education and diversity issues in the delivery of adapted physical education services in Southern California. Preliminary results - Multicultural education and diversity content in adapted	O O

	physical education textbooks	
Ana Paula Bertozzi	- Electromyography of r. femoral in women with knee osteoarthritis	P
Ana Paula Santana Riker	- Contribution of physical education for kids with mental retardation and cerebral palsy	P
Ana Rubia Penteadó Botacin	- Effects of exercise training on the lipid profile in normocholesterolemic and hypercholesterolemic elderly volunteers	P
Andréa Carla Paura	- Perception of physical education students about special education - Teacher preparation training in special classrooms: Perception of physical education students with regard to alternative and augmentative communication styles	P P
Andréa Rechineli	- Rescuing the popular culture of folk dance by teenagers and adults with visual impairment	O
Andressa da Silva	- Balance, coordination and speed in older individuals after participating in a physical activity program	P
Anelise Fagundes Oliveira	- Professional services for inclusion of children with disabilities in public schools	P
Aneliza Maria Monteiro de Sousa	- Assessing the center of pressure (COP) during standing position in deaf children	P
Ângela Kemel Zanella	- Aquatic amusement activities for students with special needs: A case study	P
Angela Teresinha Zuchetto	- Personal attributes influencing social development in people with disabilities	O
Anika Jordbru	- Multidisciplinary rehabilitation approach to gait disorders	O
Anna Bianco	- Study to use motor games studied to test normal children in nursery school, to evaluate disabled pupil included in primary and middle classes - Research about attitudes and terminology concerning the handicap	O MS
Anny Sionara Moura Lima Dantas	- Physical activities profiles of participants of the National Group of People Living with HIV/AIDS at Campina Grande	P
Antonio Carlos de Quadros Junior	- Symptoms of depression, cognitive functions and physical activity level of institutionalized elderly and elderly with Parkinson	O

April Tripp	- Infusion in Physical Education Teacher Training: Social Justice and Equal Status for All Students in Physical Education	MS
Bárbara Coiro Spessato	- Fundamental motor skill assessment: recurrent motor difficulties	O
Beth	- Behavioral and Emotional Problems in Children with Varying Levels of Motor Learning Difficulties - Gender differences in neuropsychological functioning among children with different levels of motor difficulty	P P
Brian White	- Resilience in Rehabilitation of People with Traumatic Disabilities - Identifying Changes in Resilience during Rehabilitation from a Spinal Cord Injury	P O
Bruna Oliveira Muniz	- The benefits of blindfolding people of indoor climbing	P
Bruno Giusti	- Assessing physical conditioning of participants with mental retardation before and after participation in an adapted physical activity program	P
Camilla Carvalho	- The influence of hydrogymnastic on general mobility of older women - Comparison between static balance and general mobility in older women who practice hydrogymnastic	P P
Carla Dantés Macedo	- Analysis of the volleyball service in elite Paralympics volleyball players	P
Carla Elisa Gonçalves de Carvalho	- Benefits of aquatic activities for people with cerebral palsy	P
Carla Manuela Crispim Nascimento	- Speed and balance: Comparisons between older people with Parkinson disease and Alzheimer dementia	P
Carla Prisco Arnoni	- Influence of postural alterations on performance of young soccer athletes	P
Carla Ribeiro	- Diabetes evolution in rats submitted to exercise training	P
Carla Skilhan de Almeida	- Motor intervention in day care nursing homes in Porto Alegre	P
Carlos Alberto Gomes Barbosa	- Impact of resistive exercise on chronic pain, muscle strength, blood pressure of individuals with arthritis	MS
Carlos Alberto Sato	- From Paralympics to the recreational Olympics: Redefining cultural aspects	P

Carole A. Oglesby	- State of the art; state of the heart-Center of Achievement at CSUN	F
Carolina Paioli Tavares	- Special Olympics Brazil: The experience of being active	O
Carolina Pigatto Rigon	- Playful swimming pool: Aquatic activities for students with special needs	F
Carolina Pinto Gomes	- Aquatic activities and hemiplegia: a case study	P
Carolina Ventura Rodrigues Fenandes	- Heart rate of wheelchair basketball players during a tournament	P
Cazzoli Stefania	- Adapted PE in Italian regular school: university teacher training in APA for quality implement of integration and inclusion of disability students - Physical education (PE) teachers and APA: initial and continuous training is an essential part of life long education for up to date adapted PE teaching in regular Italian secondary schools	O P
Cecilia Edla Machado Almeida	- Motor coordination in children and older people	P
Celina Aguilar Gomes	- Leisure activities in hospitals: a relationship approach	P
Celso Eduardo Rezende Borges	- Stress level in boccia Paralympic athletes	P
Christiane Carvalho Faria	- The art and the person with severe motor disability: an experience - Playing is for everybody	P W
Christian Guiralt (not regis)	- A quality sport for people with intellectual disability	W
Christoph Lienert	- Collaboration between college-based teacher education and public schools: Creating a multimedia case study to enhance physical education teacher education	O
Cibele Franco Costa	- Neuromotor behavior analysis of middle-age female gymnasts	P
Cícero Campos	- Analysis of balance in people with mental retardation - Effects of a dance program in the development of rhythm and balance of deaf people - Comparisons of levels of flexibility presented by people with and without mental retardation - Assessment of physical capacity of strength in people with mental retardation - Project special child: An experience with soccer and dance	O P P P

	for people with mental retardation	F
Cindy Sit	- Physical Activity Levels and Body Image in Relation to Physical Self-concept and Global Self-esteem of Individuals with Physical Disabilities	O
Ciro Winckler de Oliveira Filho	- Visual acuity in moderate low vision athlete non-eligible for blind sports: a case study	P
Cisaro Andréa	- Experimental group of research of innovative solutions and elements concerning the application of movement with music	F
Cláudia Foganholi	- Swimming: a teaching and learning process for visually impaired people	O
Claudia Peiretti	- Adapted physical activity for the blind people	O
Claudia Teixeira Arroyo	- The use of aquatic activities for positive self-concept stimulation in children with cerebral palsy - Aquatic activities influences on postural balance of children with cerebral palsy	O P
Claudio Andre Barbosa de Lira	- Anaerobic characteristics are associated with the functional classification of wheelchair basketball players: a preliminary study	P
Cláudio Marques Mandarino	- Identity and difference: Leisure of disabled youngsters living in Mathias Velho, Brazil	P
Clécia Soares de Alencar Mota	- Effects of Hypercaloric and neonatal aloxanic diets on static insulin secretion from pancreatic islet isolated from rats: Preliminary results	P
Cleuza Maria de Almeida	- Meeting of bodies: The hall dance stops beyond the vision	P
Cristiane Galvão da Costa	- Social development of young adults with physical disability who practice Trekking - Inclusion of an adolescent with cerebral palsy in a school dance group	P P
Cristiane Pereira de Souza	- Silence as part of a physical education class: an experience with auditory deficiency	O
Cristiani de França	- Personal assertive attributes of social development of people with Down syndrome in motor activity	P
Dallas J. Jackson	- Influence of Specific Reinforcement Techniques on the Climbing Wall Performance of Children with Mild/Moderate Mental Retardation	P

Daniela Boccardi	- Intervention program using leisure and inclusive activities: a motor and social analysis in mental retardation, Down syndrome, X-fragile, and non-disabled children	P
Daniela Sanches Machado	- Evaluation of muscular strength in "on" and "off" periods of Parkinson's symptoms: a follow-up study	P
David Rodrigues	- Learning to Move, Moving to Learn	F
Dawne Larkin	- DCD in teenagers	MS
Denise Elena Grillo	- Gait analysis of young and adult individuals with Down syndrome who practice cycling: A kinematic analysis	P
Deny Gomes de Freitas	- Comparative study of the quality of life in hypertense patients	P
Dilara Özer	- An adapted physical education and sport program for athletes with special needs - An adapted physical education and sport class in Akdeniz University	P P
Dinold Maria	- The Relation of Sensitive Terminology and Personal Contact in Context of Inclusive Education and Adapted PE - Dance and Creative Movement – promoting personal development in inclusive settings	O W
Dr. Ikram Hussain	- Sports tourism: entrepreneur anticipation	O
Dr. kalpana Sharma	- Physical activity for the mentally challenged children	O
Dr. Rainer Schliermann	- Self-efficacy and sport anxiety of German elite female wheelchair basketball players	O
Dra. Maria Alves de Toledo Bruns	- Spinal cord Injury patients: Their affective and aexual experience - A love relationship between blind and non-blind persons	O O
Druzo Tiago de Paula Abreu	- Functional independency using MIF of athletes with physical disability	P
Dwan Marie Bridges	- The impact of video technology to identify pharmacological reactions and motor dysfunction for individuals with ADHD	O
E. Michael Loovis	- Brief solution-focused coaching during clinical/practical experience in APA: Preservice professional preparation - Inclusion in youth sport: Arguing a real-life situation - Applied behavior analysis: how to do single subject research - Single Subject Research - The Hows of Doing Applied Behavior Analysis	O P P W

Edson Nacib Jorge	- Intraocular pressure and physical activity: study on arterial hypertension subjects	P
Eduardo Armando Bausas Junior	- Adapted sport for people with cerebral palsy: Contributions for practice	P
Elaine Capelassi Souto	- Does swimming functional classification system discriminate the propulsive capacity of swimmers?	P
Elaine Mara da Silva	- Brazilian wheelchair basketball players: Profiles of sport participation and type of spinal cord injury - Wheelchair basketball: development in rehabilitation, wellness and awareness	P W
Eli Wolff	- Understanding the Human Rights of People with Disabilities in Sport and Physical Activity	W
Eliane Mauerberg-deCastro	- Inclusion and peer tutoring in an adapted physical activity outreach program for Brazilian university students - The anchor system and postural control of individuals with mental retardation	O O
Elina Karvinen	- Strength in old age: A health exercise program for older adults 2005-2009	O
Eline Tereza Rozante Porto	- Physical activities for blind people - The presence of the mother in a motor activities proposal for a blind child	P P
Elisa Dornelas Borges	- Gymnastic activities in the adult orthopedic/neurosurgery program of the Sarah Rehabilitation Hospitals	P
Elisabth de Mattos	- Effects of an inclusion program in aquatic activities	P
Elizabeth Carvalho Lugão	- Special education through swimming classes - Physical activity in and outside the water: A pedagogical work with special students	P F
Erácliton Viana de Souza	- Risk for heart ischaemic diseases in active women	P
Evaggelinou. C.; Mansell, M. (IPC)	- International Paralympic Committee's Policy On Education: Working Towards A More Equitable Society	W
Érica Roberta Joaquim	- Analysis of the motor performance in people with disabilities	P
Fábia Freire da Silva	- Heart ischaemic diseases: risk factor and mental disability	O
Fabiana Cornel Freitas	- Center of Studies of Adapted Physical Education	F
Fátima Elisabeth Denari	- Program of acrobatic gymnastic for students with special needs	F

Felipe Del Mando Lucchesi	- Exclusion in elementary school: A case study	P
Feryal Subasi	The Promotion of Physical Activity for Children with Mental retardation in Turkey	O
Filipe Alexandre Queiros Soares	- School of Adapted Sport: An increasingly developed project in Portugal	P
Filipe Antônio Souza de Moura Lima	- Anthropometric comparison between boys and girls with moderate intellectual impairment of public and philanthropic school	P
Flávio Gonçalves Pinto	- Physical activity for women with breast cancer	P
Flora de Sena Seixas	- An experience with a group with neurological syndrome	P
Frederico Ribeiro Neto	- Patients with spinal cord injury: jugglers, in fact (Part I) - Patients with spinal cord injury: jugglers, in fact (Part II)	P P
Gabriela Gallucci Tolo	- The world of aquatics experienced by blind people: Pedagogical process of teaching	F
	- Pedagogical style of teaching Karate (Shotokan) for deaf children	P
	- Assessing body image in active and non-active elderly	O
Gabrielly Craveiro Ramos	- Functional classification system and metabolic and physical variables of wheelchair basketball athletes with polio at upper limbs and athletes with spinal cord injury	O
Geraldo Gurgel de Mesquita Neto	- Diversifying the rehabilitation process	P
Gerd Hoelter	- New Theoretical Perspectives on APA	MS
Gilmar de Carvalho Cruz	- Ecological perspective on continuing formation of physical education teachers within inclusive educational contexts	P
	- Continuing formation of physical education teachers inserted in inclusive school environments	O
Giovani Bordin de Oliveira	- Indoor soccer: movement existence, education and learning for students with special needs	P
Gisele Souza de Castro	- Aquatic stimulation and the child with cerebral palsy	P
Giseli Fregolente	- Swimming for people with disabilities using the ecological theory of development	P
	- The relationship amongst students with disabilities in swimming classes	O

Gizele Nicoletti	- Movement strategies for manual grasp in individuals with cerebral palsy	P
Glenn Roswal	- Eurofit Special: European Psychomotor Test battery for individuals with mental disability - Special Olympics in the University Curriculum	P MS
Graciele Massoli Rodrigues	- Perception of the self and the other, the individual with disability, by physical education students - Perceptions of teachers and users during participation in an adapted physical activity university outreach program	O O
Greg Reid	- Profiles of self-regulation in children with and without Developmental Coordination Disorder	P
Guilherme Henrique Ramos Lopes	- Participation of individuals with spinal cord injury in an athletic community event: 25 hours swimming - Sailing school project for youth rehabilitation	P P
Hayley Fitzgerald	- Masculinity, disability and the big screen: a critique of Murderball - Complex sporting identities expressed through physical education and community sport	O O
Heddy Patrick Alves Garcia	- Inclusive school and inclusive physical education: A teacher's view	P
Helena Andrade Figueira	- Quadriplegic chess electronic board: A new sport activity proposal for a worldwide tournament	O
Hosung So	- Effect or Affect? Labeling Students in Physical Education - Preservice Teachers' Attributes Related to Teaching a Student Labeled ADHD	O O
Humberto Andrade	- Boating in rehabilitation: The experience of the International Center of Neurosciences and Rehabilitation of the Sarah Hospitals	O
Hyun-Kyoung Oh	- Emotional reaction profile of Korean physical educators	O
Iana Dobрева-Faria	- Joint actions project: The European movement towards inclusive physical activity for children and youngsters with disabilities	P
Iêda tereza Boucault	- The use of touch in receiving and defending in sitting volleyball	P
Jacileide Lima Ribeiro	- Physical education x intense activity: suggestion of standards for hyperactive beginners in a physical education	P

	classes	
Jackie Lauff	- A pilot study of the historical participation by developing countries in international disability sport competition	P
Jane Taylor	- Impaired balance in children with Developmental Coordination Disorder: What happens after 9 weeks of clinical intervention?	P
	- The impact of training in self defense on the quality of life of people with disabilities	O
	- The effects of a 10-week yoga intervention on balance, mobility, spasticity and quality of life in people with multiple sclerosis	O
Janice Causgrove Dunn	- An Updated Systematic Review of Motor Skill Interventions for Children with DCD	P
Janice Guimarães Carvalho	- Estabilometric study of the orthostatic postural behavior in blind children	P
Jaqueline de Oliveira Santana	- It goes beyond mental suffering: Social insertion through physical activity of individuals with mental suffering	P
Jennifer Peco	- TrailRider outdoor program: A pilot study	O
Jihoun Na	- Exploring teachers' perceptions of parental involvement in inclusive general physical education	P
Joaquina Maria Valverde Romera	- Physical activity as a therapeutic alternative for people with mental illness	O
John Solomon	- Self-contained or Inclusive Physical Education for a Child with Dandy-Walker Syndrome: A Two-Phase Approach	P
José Geraldo da Silva Morelli	- Functional mobility in active and non-active institutionalized and non-institutionalized elderly	P
José Irineu Gorla	- Relationship between anthropometric measures and lateral and one-foot jump KTK tests in deaf children and teenagers	P
	- Anthropometry and motor performance in athletes practicing wheelchair handball	P
	- Development of generalized equations to estimative motor coordination in children and adolescents with mental retardation	P
	- Adapted Capoeira	P
	- Project Adapted Motor Activities (AMA) at the Paranaense University, Toledo, Brazil	F
José Pedro Ferreira	- Physical self, body image and global self-esteem in active	O

	and non-active individuals with physical disabilities	
José Renato Campanelli	- Diabetes, information and physical activity	P
José Roberto Calçada Carvalho	- Cooperative physical activities in inclusive physical education classes	F
Joseani Paulini Neves Simas	- Lifestyle of middle age men and women at an open university	P
Joseph Nolan	- Universal design in physical activity: next logical step or pipe dream?	W
Josiane Fujisawa Filus	- Body position trouble and learning difficulties in mouth-breathing students - Consequences of mouth breathing in child development: New challenges for physical education	O W
Joslei Viana de Souza	- Learning Down: Playing and learning with adversity - Perception of general users of the Athletic Association of the Bank of Brazil about the project "Down syndrome: swimming with the differences"	P P
Judy Chandler	- Comparison of physical activity levels of students with disabilities to students without in general physical education settings	P
Juliana de Oliveira Torres	- Effects of a six-week flexibility training protocol using static-passive method in active elderly women	P
Juliana Martins de Souza	- Effect of treadmill training to facilitate stepping: A case study	O
Juliana Teixeira Dias	- Effects of physical activity on sleeping in individuals with Parkinson's disease	P
Juliane Machado Marques	- Bocce in rehabilitation of patients with brain injury: experience at the Sarah Hospitals Network	P
Kamil Özer	- Effects of a physical activity program on blind children	P
Kamily Ferreira Moreira	- Adapted track and field for participants with of mental retardation	P
Karen Lucas Anício	- Comparison of physical fitness through max VO2 of sedentary individuals with heart conditions and who had suffered heart attack	P
Karla Raphaela da Silva Ramos Freitas	- Aquatics activities for adults with disabilities: an intervention proposal	P
Kate Patricia Heveldt	- Effects of strength training in a child with developmental	P

	coordination disorder	
Kathya Augusta Thome Lopes	- Inclusive physical education in the Amazon state schools at the high Solimões area	O
Kátia Euclides de Lima e Borges	- Goals in the life of participants with severe mental disabilities are associated with leisure skills	P
Keila Mariano Vieira	- A program of motor activities for an adolescent with disability	P
Keith Johnston	- Creating dignified and functional spaces	O
Ken Black	- Hashing is Smashing! An outdoor adventure option for disabled people - The Inclusion Spectrum: a practical model for inclusive physical activity	W W
Kensuke Iwaoka	- The process of psycho-physical and social alterations through the long-term inclusive dance activities: case studies in three typical participants	F
Kerri Staples	- Movement skill development and motor planning in children with autism spectrum disorders - Getting in step with autism spectrum disorders: Obstacle avoidance and multiple comparisons	O P
Keyla Vilas Boas Pinto	- Analysis of fundamental movement patterns in blind students from a state school of Minas Gerais, Brazil	P
Kim Raone Martins e Silva	- Track and Field: running with youngsters with mental retardation	P
Laidiston Sales Godinho	- Adapted aquatic activity for people with cerebral palsy	P
Larissa Riani Costa	- Identification of "urban disorientation" as a main factor in non-institutionalized elderly	P
Lauren Lieberman	- Utilizing segregated summer camps to collect data on children with low incidence disabilities: benefits and issues	W
Laurie Malone	- The heart rate response of junior wheelchair basketball players during practice and competition - Heart rate reliability across days during sport activity in individuals with physical disabilities - The effect of competitive environment on mood states in elite female wheelchair basketball player	P P P
Leandro Ferreira	- New directions to exercises programs for older adults	P
Leandro Penna Ranieri	- Experiences of overcoming by a blind athlete: a	P

	phenomenological analysis	
Leonardo Mataruna	- Sports for achondroplasic people: what is necessary to know? - Map of the sports for dwarf people - Paralympic Games and the physically modified athletes: the problem of doping	O P P
Leonardoc Chaves da Silva	- Physical education: proposal for a hospital of Manaus	P
Leonice Aparecida Doimo	- Comparisons between two methods for screening cognitive impairment among the elderly population serviced by the public health system	O
Lilian Juliana Furlan	- Effects of aerobic physical activity on the pulmonary capacity of older individuals	P
Lilian Teresa Bucken Gobbi	- Environmental effects on functional mobility of children with diplegic, spastic cerebral palsy	P
Lionela da Silva Corrêa	- Descriptions of experience by children with physical disability	P
Lisa M. Silliman-French	- Descriptive Analysis of Physical Education Programming for School-Aged Youth Who are Incarcerated	P
Lucas Oliveira Rocha	- Track and field training of visually impaired or blind athletes for the II PARAJASC	P
Lucia Sodré	- Recreational adapted scuba diving: an alternative for leisure and adventure	O
Luciana Lunkes	- Motivations of people with physical disability to start playing wheelchair basketball - Teaching the 'crawl' style to congenital blind people: an experience	P P
Luciano José Marchiori Zanollo	- Special Project VivaVôlei and inclusion: a new perspective for the Brazilian volleyball - Volleyball as a means of socialization and human valorization - Volleyball & inclusion of people with disabilities	F F P
Luciano Lazzaris Fernandes	- Project Saturday on Campus: Adapted Sports, 10 years of teaching, research and community services	P
Luis Columna	- Benefits, barriers and patterns of physical recreation of Hispanic families with children and youth with disabilities - Collaboration between Hispanic families with children with	O P

	disabilities and adapted physical education professionals	
Luiz Alberto Rodrigues	- Scouting a goalball team: A report on ACIC/UFSC of Florianópolis, Brazil	P
Luzia Mara Silva Lima-Rodrigues	- Adapted motor activity and quality of life: is it possible one without the other?	O
Maicon de Freitas da Silva	- Effect of physical exercise and soy yogurt consumption on colonic preneoplastic lesions in rats	P
Mara Rubia Antunes	- Dancing with the difference: from pedagogical actions to development of knowledge	O
Marcela Maria de Sampaio Barros	- Wheelchair dance sport and aging: possibilities for participation	P
Marcela Rodrigues de Castro	- The body conceived by the media and the body proposed by the Pilate's method	P
Marcelo Donizeti Silva	- Horse therapy improving quality of life of people with disabilities	P
Marcia Cozzani	- Implications of mental retardation on perceptual-motor development during a modified Piagetian "A not B" task	O
Márcia da Silva Campeão	- Physical education in hospitals: an interdisciplinary contribution to the health care of people with chronic illness: an experiential report	O
Márcia Greguol Gorgatti	- Teacher's attitudes towards inclusion of children with disabilities in physical education classes	O
Marcia Lomeu Castellano	- Functional classification in wheelchair basketball: criteria and procedures	P
Marcia Perides Moisés	- Prevention of asthmatic crises in school	W
Marco Antonio Dinoá	- Motor coordination profile of children swimmers	P
Marcos Antonio de Souza	- Physical education and occupational therapy in an outreach program for individuals with disabilities at UNIPLAC	P
Maria Angela Moreira Vieira	- Education for all: utopia or reality	P
Maria Auxiliadora Terra Cunha	- Inclusive physical activity: a study of the imaginary adventure of (dis) abled bodies students	P
	- Utopian adventure on wheelchairs: the imaginary dance as the (re)-discovery of the body language	O
Maria Claudia Vanicola	- The inclusion of students with disabilities in physical	P

	education in schools of São Bernardo do Campo, Brazil	
Maria Dilailça Trigueiro de Oliveira Fer	- Physical activity programs and Parkinson's disease	F
Maria do Socorro Correia Lima	- Sexuality, woman and paraplegia: memories and silence	P
Maria Georgina Marques Tonello	- The effects of the mental training in the teaching of rolling forward in students whit mental retardation	P
Maria Helena Cirne de Toledo	- Physical activity mediating the establishments of bonds in autism	P
	- Motor stimulation: expanding possibilities	P
